THIS COMPANY, organized in 1846, on a system entirely *Mutual*, furnishes Insurance in all the various forms, and to meet all the various contingencies for which Life Insurance is desired, at the *actual cost* to the policy holder. There is no *Stock* or *Guaranty Fund* to absorb the profits, but all the *surplus* is annually allocated to the policy holders, in proportion to the amount of the premium they pay, and may be appropriated to the payment of *renewal* premiums, after the first four years.

Some of the Important Reasons why this Company should be Preferred.

It offers *abundant* SECURITY, in a large accumulated Fund, derived from Premiums, amounting to *Five Millions of Dollars.*

Its ECONOMY in the management of business permits large dividends to policy-holders, which have averaged **50 per cent.** per annum.

Its DIVIDENDS are ANNUAL, and are paid, *during the life* of the assured, in cash to those who pay their premiums in cash, or applied in canceling the notes of those who pay their premiums partly by note. Over $200,000 have been thus refunded to policy holders during the past year.

It is prompt in PAYMENT OF LOSSES.

It ACCOMMODATES the insured in the settlement of their premiums on *Life* policies, by receiving a note for *one-half*, when the premium amounts to $50 or more,—thus furnishing insurance for double the amount, for nearly the same *cash* payments, as is required in an "ALL CASH COMPANY."

Much has been recently written and extensively circulated, by a prominent Life Insurance Company, condemning the *credit* or half-note system, as practiced by this and some other prosperous Companies. The illustrations accompanying those attacks explanatory of the system, exhibit either an inexcusable ignorance of the plan, or a wanton effort to mislead and prejudice those who seek insurance upon the most *equitable and economical plan.* The explanations thus published to illustrate the *half-note* system, do not, it is believed, apply to *any* Company in the country, certainly not in the least degree to the CONNECTICUT MUTUAL, in which there cannot be an accumulation of premium notes beyond *four* half premiums; as the dividends apply to cancel those notes after the first *four* payments. Parties are not, however, *required* to give a premium note to this Company; but, if preferred, may pay *all cash*, in which case, their dividends are applied to a reduction of the premium.

The Directors have ordered the dividend of 1859 to be paid during the current year, as the renewals become due and are paid—by reduction of the premium of those who have paid all cash, or canceling the notes of those who have given notes for one-half.

ROYAL INSURANCE CO.

FIRE AND LIFE,

OF LIVERPOOL.

Subscribed Capital, ...	$10,000,000
Paid-up Capital and Assets, ...	4,257,420
Held in New York, ...	543,302

The correctness of the above statement is certified to by the United States Consul in Liverpool, and a Notary Public in the city of New York.

The **increase** of the "**ROYAL**" **Fire Premiums** is more than **double that of any other Company,** and more than **30 per cent.** of the entire increase of all the London offices combined. The Auditor-General's report shows that the premiums of the "**ROYAL**" in this city are **40 per cent.** of all the premiums received by the Foreign offices in Philadelphia.

LOSSES SETTLED IN PHILADELPHIA WITHOUT REFERENCE TO LIVERPOOL, BY

GEORGE WOOD, Agent,

No 226 Walnut St., Philadelphia, Fire Office, First Floor.

ROYAL LIFE INSURANCE BRANCH,

No. 226 Walnut Street, Second Floor.

Independent of the above sums, the "**ROYAL**" **Life and Endowment Fund** amounts to

$1,620,000.

This Fund is, in proportion to the risks it represents, as large as the funds of the best mutual and other life insurance establishments, yet the Company offers as additional security to life insurers its entire capital and assets.

THE ROYAL LIFE OFFICE insures on the lowest terms compatible with absolute security. Its premiums are not higher than those of mutual and other companies.

THE ROYAL LIFE exposes the insured to none of the dangers inherent in the mutual system.

The premium paid is not an expenditure, but an investment.

The **Dividends** of the "**ROYAL,**" hitherto amounting to 2 per cent. per annum on the sum insured, are the highest ever continuously paid by any reliable mutual company, while the advantages offered by the "**ROYAL**" are tantamount to non-forfeiture of life policies.

Policies can be surrendered to the Company at their equitable value, or new policies granted in lieu thereof, without further payment of premiums.

Further information may be had by personal application, or by letters, directed to the

SCHENCK'S

PULMONIC SYRUP,

For the Cure of Consumption, Coughs & Colds.

The great virtue of this medicine is, that it ripens the matter and throws it out of the system, purifies the blood, and thus effects a cure.

SCHENCK'S

MANDRAKE PILLS,

For the Cure of Liver Complaint, &c.

These Pills are alterative, and produce a healthy action of the Liver, without the least danger, as they are free from Calomel, and yet more efficacious in restoring a healthy action of the Liver.

SCHENCK'S

SEA-WEED TONIC,

For the Cure of Dyspepsia, Indigestion, &c.

The Tonic produces a healthy action of the Stomach, creating an appetite, forming chyle, and curing the most obstinate cases of Indigestion.

These remedies are a certain cure for Consumption, as the PULMONIC SYRUP ripens the matter and purifies the blood. The MANDRAKE PILLS act upon the Liver, create a healthy bile, and remove all disease of the Liver, often a cause of Consumption. The SEA-WEED TONIC gives tone and strength to the Stomach, makes a good digestion, and enables the organs to form good blood, and thus creates a healthy circulation of healthy blood. The combined action of these Medicines, as thus explained, will cure every case of Consumption, if taken in time, and the use of the Medicines persevered in.

Dr. Schenck's Principal Office is at No. 39 NORTH SIXTH STREET, where he can be found every Saturday to prescribe his remedies, to give advice, and examine lungs with his Respirometor, if required.

PRICE OF THE PULMONIC SYRUP,

$1 per Bottle, or $5 per half dozen.

PRICE OF THE SEA-WEED TONIC,

$1 per Bottle, or $5 per half dozen.

PRICE OF THE MANDRAKE PILLS,

25 Cents per Box.

1863.

The City Directory for the Present Year.—Owing to the unfavorable condition of the weather, the work of canvassing for the 1862 directory has not yet been commenced. Mr. McElroy expects to begin operations on Monday next, if not sooner. One of the greatest difficulties experienced by canvassers is the reticence of "domestics." Some of these flatly refuse to give the needed information until the whole system of directory-publishing, with its attendant benefits, is set forth to their satisfaction; others, fancying the canvasser a tax-collector in disguise, purposely give incorrect information, for the sake of a laugh in their sleeves at having so shrewdly outwitted him; with others the answer is, "call again," or "leave your name and residence, and Mr. So-and-so will call when he is in the neighborhood." Thirty-three per cent. of the old-maid housekeepers "want to see that man particlar, and want to know whether he doesn't live at the other end of the town, and couldn't leave a small bundle at Miss Shimphorn's select academy," or at some other equally unapproachable place.

Of course, a refusal precludes all chance of getting any information from *that* habitant. Sometimes the canvasser will not be listened to at all, because, after a stranger had called at the house last week, a silk umbrella was missing. In fact, a hundred ridiculous pretexts for evading his proper and necessary questions are trumped up by silly housekeepers, who would feel called upon to display indignation if their intelligence were called in question. Therefore, the work of canvassing is one of unending vexation, and requires a set of men with lamb-like dispositions.

After the canvassing is complete, the assorting of the material is proceeded with; next in order comes the compilation of statistics, municipal schedules, etc., and, finally, the writing of a preface. The work is then placed in the hands of the printer, and the sheets are ready for the binder in about twenty days thereafter.

Since the year 1837, when his first directory was issued, Mr. McElroy has mostly monopolized this branch of business. All who have attempted to compete with him have failed, either from inexperience or other cause. His first work contained 31,500 names—something of a difference from 1861, with its imposing array of one hundred and sixty-five thousand, or about as large as the army of the Potomac!

Previous to Mr. McElroy's connection with the business, numerous persons had at various times endeavored to make it one of profit. The first of them was Francis White, who appeared upon the scene in 1785. He was followed by John MacPherson, who was succeeded in 1791 by Clement Biddle, in 1802 by James Robinson, and in 1828 by Robert Desilver.

Entered, according to Act of Congress, in the year 1863,

By A. McELROY,

In the Clerk's Office of the District Court of the United States, in and for the Eastern District of Pennsylvania.

Curiosities of the City Directory.—The twenty-sixth annual issue of *McElroy's Philadelphia Directory*, just issued, contains nearly eleven thousand more names than the Directory of 1862. The present work contains about 114,000 names the collection and publication of which have entailed an amount of labor inconceivable to those not conversant with the business. The collection of the names alone occupies from thirty to forty men during the entire months of October and November. The mass of names thus collected, amounting to nearly 300,000, must then be compiled and collated, and the duplicates destroyed. This is rendered necessary by the fact that, in a very few cases, can a person's residence be discovered at his place of business, and, *vice versa*, it is a rare thing indeed that one member of a firm can inform a collector where his partners reside. Finally, when the work is completed, it calls forth more grumbling and discontent than any other kind of publication. As an example, Mr. Smith tells the collector who calls on him, that he does not wish his residence put down; Mr. Jones asks to be put down only as a gentleman, and Mr. Brown refuses to give his name entirely, stating that he thinks "directories are only good for thieves and detectives." When the book comes out, Mr. Smith says he won't have the book, because his residence is not put down; Jones says that he is no gentleman, (in which perhaps he tells the truth,) but is only a blacksmith. Finally, Brown's friends, not being able to find him in the book, charge him with being a skulker, and he in turn pitches into Mr. McElroy. The hardest part of the labor connected with the publication, however, is the reading of the proofs. Proof-reading is at all times a tedious business, but to go over a hundred thousand names, and afterwards remain uncertain whether fifty thousand of them are correctly spelled, is indeed discouraging. As usual, the Smiths prevail in this year's issue, being 1367 in number—of these only 155 are Johns, so that a letter directed simply to John Smith, Philadelphia, has an extremely large chance of reaching the proper John. The aristocratic branch of this family, the Smyths, are only 19 in number, and the extra aristocratic family of Smythe is represented by only one scion. There is an evident desire on the part of the great Smith family to cover the obscurity of the name by attaching to it that of some great personage, witness the number of Washington, Julius Cæsar, and Byron Smiths, not to speak of the famous author of Gil Blas.

Per contra, there are only two names in the directory commencing with an X, though so many persons sign it instead of their names. There are 605 Browns, 480 Joneses, and 198 Greens living amongst us, and it may be a satisfaction to our Democratic friends to know that the Whites outnumber the Blacks by 184. This article may be concluded by stating that very many persons agree to subscribe for the directory, and after their names are inserted in large capitals refuse to take the work on some frivolous pretext. In no single year, since 1838, have the subscriptions to the book been sufficient to cover the expense of its publication.

McElroy's Directory for the city of Philadelphia has lately been published, for the year 1862. It is edited with the usual completeness, and the usual variety of information in its miscellany at the end. The appearance of the book is rather smaller than that of last year, owing probably to the omission of many names of persons in the army. Of the Smith family there are 1259, of the "Macs" of various descriptions, 4684; Brown, 560; Jones, 476; Johnson and Johnston combined, 528; White, 278; Young, 294; Lewis, 238; Green, 190.

The Philadelphia Directory for 1863.—McElroy's Philadelphia City Directory for 1863 will be forthcoming about the middle of next month. The canvassing is now completed, it having been accomplished in thirty days, a very short time for so extensive a labor. The increase of population, though it may not materially affect the size of the volume, is yet quite sufficient to be noticeable. Peculiar care has been observed in the preparation of this edition, and every one appreciates the almost incalculable value of a reliable directory.

PREFACE.

Owing to the unsettled state of the country, and consequent disturbed condition of almost every department of business, more than the usual difficulties have attended the publication of the City Directory for 1863. The compiler, however, is happy to say, that by unusual labor and perseverance, these difficulties and the numerous discouragements encountered have been surmounted, and the twenty-sixth edition issued at about the usual time of publication.

The number of pages of the alphabetical enumeration of the names has been increased nearly one hundred, making an addition of over 10,500 names. The Business and Miscellaneous Departments have also received proper attention.

The very limited encouragement extended, both in subscriptions and advertisements, together with the extremely high price of printing paper, afford but little hope of adequate return for the heavy expenses incurred and amount of labor expended on the present edition.

The usual means have been employed for the collection of names, and with the usual hindrances to the obtaining of correct information; and it is a matter of perfect surprise to the compiler to meet from year to year with almost entire indifference on the part of housekeepers and others to giving correct information. Indeed, although a request was made in the public papers this year, that names should be written on slips or cards for the canvasser, yet, strange as it may appear, not a *single* response was received.

The paper on which the edition for 1863 is printed cost twenty-one cents per pound, and is of a quality far inferior to that ordinarily used, although the best that could be obtained at any price, within the reach of the publisher.

Every effort has been put forth to make the present edition as reliable as possible; and if, in the honest endeavors of the compiler, he has succeeded in making a near approximation to that end, his aim will have been attained and the interests of his subscribers subserved.

A. McELROY.

January, 1863.
